📍 Berlin, Germany | Mexican & Spanish EU citizen

SUMMARY

Frontend engineer with 8+ years of professional experience building user-facing web applications, reusable React components, responsive interfaces, forms, search/filter flows, quizzes, interactive widgets, and polished product UX. Strong professional foundation in React, TypeScript, JavaScript, Material UI, GraphQL/Apollo integration, and modern web UI. Best suited to teams that care about frontend quality, clear component architecture, product collaboration, and maintainable delivery in real codebases.

TECHNICAL SKILLS

Frontend Core:

JavaScript, TypeScript, React, component architecture, hooks, context, state management, responsive interfaces

Styling & UI Systems:

CSS, responsive layout, Material UI, Tailwind, styled-components, design systems, forms, onboarding flows

Integration & Testing:

GraphQL/Apollo, REST APIs, Playwright, debugging, code review, browser tooling

Delivery:

GitHub Actions, deployment, CI/CD, AI-assisted research/prototyping/implementation workflows

EXPERIENCE

Independent Web Applications

Berlin | Apr 2025 - Present

Frontend-focused web apps, UI systems, and AI-assisted delivery workflows

Designed and built independent React/TypeScript web applications focused on polished UI, responsive layouts, search/filter and comparison flows, realtime interactions, PWA/offline behavior, loading states, and iterative UX improvements.

Lingoda

Berlin | Jun 2021 - Mar 2025

Software Engineer - Language learning platform

Built user-facing features for a live online language learning platform. Had major frontend ownership of Lingobites student-facing exercise flows, including interactive UI, multiple exercise types, routing, animations, state handling, progress tracking, gamification, and flashcard integration. Helped replace a constrained third-party quiz system with an in-house experience, working with React, Apollo/GraphQL, Material UI, product, design, backend, QA, bug fixing, and release iteration.

Quandoo

Berlin | Sep 2017 - Jan 2021

Software Engineer - Restaurant reservation platform

Built and improved the consumer restaurant booking site across search, discovery, reservation, promotional, SEO, and performance surfaces. Led investigation and planning for a major React Router migration, mapping dependencies, comparing options, documenting tradeoffs, and helping preserve custom SSR and styled-components behavior while unblocking React/library upgrades. Also worked on metadata, canonicals, internal linking, indexability, availability filters, and time-to-first-paint/time-to-interactive improvements.

Market Logic Software

Berlin | Mar 2016 - Jul 2016

Web Developer - Data visualization UIs

Built data-heavy UI components, interactive graphs, and dynamic widgets with React and D3.js for an enterprise market intelligence platform. Worked on interfaces that translated research and insight data into usable visual product surfaces.

AISA

Mexico | Apr 2015 - Jun 2015

Software Developer - Government document systems

Built UI forms and controls for legal document management systems using C#, WPF, and SQL databases. Contributed to internal software for capturing, validating, and managing structured document data in government workflows.

EDUCATION

Bachelor of IT Engineering - Tecnologico de Monterrey, Mexico

Aug 2012 - May 2017
