Berlin, Germany | Mexican & Spanish EU citizen

SUMMARY

Frontend-focused engineer based in Berlin with deep React/TypeScript experience building user-facing product flows, polished UI, search/filter interfaces, interactive exercises, and production features. I learn quickly, experiment with new tools and product ideas, and use AI-assisted development workflows to move faster while keeping care for clean, tested product work.

TECHNICAL SKILLS

Frontend & Architecture:
React, TypeScript, JavaScript, component architecture, Redux Toolkit, React Context, TanStack Query, Zustand, Apollo Client, complex product workflows, responsive UI, SSR, routing, monorepos, Material UI, styled-components

Data & Product Delivery:
GraphQL, REST APIs, Node.js, PostgreSQL, WebSockets, browser APIs, PWA/offline support, performance, technical SEO, Docker, GitHub Actions, CI/CD

Quality & Engineering Practices:
Unit, component, and end-to-end testing, debugging, code review, technical planning, mentoring, cross-functional collaboration, AI-assisted development

EXPERIENCE

Independent Web Development

Berlin | Apr 2025 - Present

Web apps, UX, and AI-assisted delivery workflows

Designed and built independent React/TypeScript web applications across polished UI, search/filter and comparison flows, realtime interactions, PWA/offline behavior, data pipelines, deployment automation, debugging, and iteration. Applied modern web tooling, full-stack delivery patterns, and AI-assisted development workflows while owning architecture decisions, product direction, and final behavior.

Lingoda

Berlin | Jun 2021 - Mar 2025

Software Engineer - Language learning platform

Built production frontend features for a live online language learning platform, including student practice flows, quizzes, flashcards, routing, animations, state handling, progress tracking, gamification, and GraphQL/Apollo integration. Worked closely with product, design, backend, and QA to replace constrained third-party quiz tooling with a polished in-house learning experience.

Quandoo

Berlin | Sep 2017 - Jan 2021

Software Engineer - Restaurant reservation platform

Improved a consumer restaurant booking site across search, discovery, reservation, promotional, and performance surfaces. Worked on availability filters, metadata, internal linking, indexability, performance improvements, and a major React Router migration plan that preserved SSR and styled-components behavior while unblocking frontend upgrades.

Market Logic Software

Berlin | Mar 2016 - Jul 2016

Web Developer - Data visualization UIs

Built data-heavy UI components, interactive graphs, and dynamic widgets with React and D3.js for an enterprise market intelligence platform. Worked on interfaces that translated research and insight data into usable visual product surfaces.

EDUCATION

Bachelor of IT Engineering - Tecnologico de Monterrey, Mexico

Aug 2012 - May 2017

Coursework: object-oriented programming, data structures, databases, networks, servers, operating systems, IT security, and cloud computing. DAAD scholarship exchange semester in Informatics at Hochschule Furtwangen, Germany.
