📍 Berlin, Germany | Mexican & Spanish EU citizen

SUMMARY

Frontend/product engineer with 8+ years of professional experience building user-facing web applications, strongest in React, TypeScript, JavaScript, product UI, and large production codebases. Recently adopted practical AI-assisted development workflows for prototyping, debugging, architecture exploration, implementation, refactoring, and product polish. Has built independent web apps and practical AI-enabled features while keeping ownership of product direction, architecture choices, review, deployment, and final behavior.

TECHNICAL SKILLS

Core Engineering:

React, TypeScript, JavaScript, frontend architecture, component design, state management, CSS/UI implementation

AI-Assisted Delivery:

Codex/ChatGPT-style workflows, Claude-assisted design, coding agents, prototyping, debugging, review

AI-Enabled Features:

OpenAI API integrations, AI-generated content/questions, RAG/TTS/STT experimentation

Product Delivery:

Feature planning, UI polish, full-stack slices, testing, release, collaboration with product/design/backend

EXPERIENCE

Independent Web Applications

Berlin | Apr 2025 - Present

React/TypeScript apps and AI-assisted delivery workflows

Built independent React/TypeScript applications while adopting AI-assisted development as a productivity multiplier. Used AI tools for prototyping, UI iteration, debugging, refactoring, architecture exploration, and practical OpenAI/API experiments while owning product ideas, UX direction, integration, review, deployment, and final behavior.

Lingoda

Berlin | Jun 2021 - Mar 2025

Software Engineer - Language learning platform

Built production frontend features for Lingoda, including practice exercises, quizzes, flashcards, and student-facing flows. Contributed to Lingobites, an interactive practice feature with AI-generated exercise content and human-in-the-loop quality review. Built the student-facing exercise UI, session flow, state management, progress tracking, gamification behavior, and integration of existing flashcards.

Quandoo

Berlin | Sep 2017 - Jan 2021

Software Engineer - Restaurant reservation platform

Built and improved the consumer restaurant booking site across search, discovery, reservation, promotional, SEO, and performance surfaces. Led investigation and planning for a major React Router migration, mapping dependencies, comparing options, documenting tradeoffs, and helping preserve custom SSR and styled-components behavior while unblocking React/library upgrades. Also worked on metadata, canonicals, internal linking, indexability, availability filters, and time-to-first-paint/time-to-interactive improvements.

Market Logic Software

Berlin | Mar 2016 - Jul 2016

Web Developer - Data visualization UIs

Built data-heavy UI components, interactive graphs, and dynamic widgets with React and D3.js for an enterprise market intelligence platform. Worked on interfaces that translated research and insight data into usable visual product surfaces.

AISA

Mexico | Apr 2015 - Jun 2015

Software Developer - Government document systems

Built UI forms and controls for legal document management systems using C#, WPF, and SQL databases. Contributed to internal software for capturing, validating, and managing structured document data in government workflows.

EDUCATION

Bachelor of IT Engineering - Tecnologico de Monterrey, Mexico

Aug 2012 - May 2017
